Sasha,

A draft report has been issued to Radford for their comments. We've not gotten an official "okay" yet from the Plant. I hope to hear more soon.

Brian

Subject: Radford report

Hi Brian,

It's been a while since we've been in touch - I've actually been away from the office for a little more than 6 months and am still catching up on things.

I am hoping to reconnect with you regarding the testing that was completed last Fall at Radford. I recall that you provided our team a copy of the draft QAPP for review, which we appreciated (some folks were a bit more critical than others:-o). Can you tell me if a final report has been issued and if we can get a copy? Also, is there video footage of the drone sampling that you can share with us?

Thank you in advance.

Sasha
